THE GREAT OIL FIELD IN ESTILL COUNTY

**MOST REMARKABLE SHALLOW
DEPOSIT OF OIL EVER DIS-
COVERED.**

The following interesting article covering in a general way the great oil field of Estill-co. is from the pen of a special correspondent of the Courier-Journal:

Irvine, Ky., Jan. 13.—Unwittingly the early mountaineers who put the "still" in Estill-co. Ky., overlooked a bet. As he stirred corn mash in the moonlight, he little dreamed there was beneath his retreat in the foothills enough petroleum to convert the world into a ball of flame.

Forgotten now the lure of his "white lightning," for there is flowing daily from the hillsides surrounding this historic little town thousands of gallons of crude oil—a "black lightning" with a "kick" sufficient to drive motor cars through the length and breadth of the continent.

Estill-co., of which this booming town is the hub, leaped into the hall of commercial fame during the year just ended. In the nearby steep hills and picturesque valleys, men have found a new El Dorado. Mountaineers of this county who could boast a year ago of naught save a few wooded acres, a couple of goats and a dozen or more children now have bank accounts running into six figures. Oil operators, lured to this section when reports of the Irvine oil pool leaked out, have developed the field sufficiently to know they are working in one of the greatest shallow sand oil fields in the world.

In the inner offices of Wall street kings of finance, New Yorkers are talking of the Irvine oil field. On the curb they are offering and selling stock in companies organized during the past six months to collect from mother earth the only treasure she has secreted in a reservoir of limestone beneath Estill and adjoining counties of Eastern Kentucky. The market value of wells already developed has led to coining of Estill county's title, "the fifty-million-dollar oil field."

It is all a question of development as to how soon and how rapidly the oil in this field will be converted into money, say operators here. Already the county is as well drilled as a battalion of West Point cadets. In Estill county alone there were completed last year more than 800 wells and in 50 per cent. of them "pay sand" was struck. The Cumberland Pipe Line company, a branch organization of the Standard Oil company, has put down two oil mains leading from the Irvine field to refineries in Pennsylvania. But these mains, taxed to capacity, are able to take only about 30,000 barrels of crude oil a week from the field.

Thirty thousand barrels a week and the wells in the hills about here bubbling a production approximating 150,000 barrels! And each barrel worth \$2.18 per—Is it any wonder the oil operators and simple mountain folk of Estill county are excited?

There are several things needed for further and better progress in the Irvine field, however, according to oil operators and business men of the town. Either a convenient refinery or more pipe lines are needed, they say, to take care of the production already developed. Allied with this need, there are also urgent hopes of "navigable" roads in Estill county and more machinery for further development of the field.

Akin to the commercial phase of the new oil field, which has come as another indication of Eastern Kentucky's natural wealth, is the story of what it all means and has meant to Estill-co. Irvine has withstood the shock of unexpected wealth remarkably well. The town is not the least "puffed up" at the prominence it suddenly has achieved. The assiduous court paid her during the past year by oil operators and investors has served in no measure to turn to indifference the native hospitality of the people. They figuratively have opened up their arms and welcomed the oil experts, attracted to Estill county from all corners of the nation.

As quietly and serenely as ever business in the little town continues on its merry way. It is true the population of the town has grown during the past year from about 750 to nearly 5,000 persons. Building development has about kept pace with the increase in population, but the town is in no sense of the word a "mushroom" city. Scarcely a trace of the "boom" and "rush" elements is to be found. Prices have increased only in keeping with the advance in other sections of the country. The good people of the county seem not at all goggle persons who have made no effort to share in the new wealth.

Probably this is due in large measure to the fact the native residents are themselves getting large slices of the oil melon that is being divided. It is conservatively estimated by a local banker that 200 farmers of this county, who until a year ago were very poor, are to-day enjoying all royalties amounting to from \$5,000 to \$100,000, as the individual cases may be. These farmers, too, have expended not one nickel in money and not one ounce in effort—the chance has been taken entirely by outside operators, who backed their labor and their dollars against the oil possibilities under the farmers' rocky acres. It is these operators who have taken the chance and it is they who are reaping the bulk of the harvest.

The increase in Irvine's population has been gradual during the past year

—there has been no concerted rush to the new oil field.

News of the Irvine field spread, like ink in a blotter, in all directions soon after it was determined the "find" was real. Then the oil operators began to drift in from the four corners of the earth, the majority of them from the Oklahoma and Ohio oil fields, but several from points as far distant as Australia.

Hotels in the town have been unable for a year to care for all the guests. Even now, with work in the field at its lowest ebb because of weather conditions difficult of travel, hotel guests are forced to sleep two and three in a room. Even to get accommodation in this wise, it is necessary to wire ahead for reservation else a cot in a hall will probably be your lot. "Mushroom" restaurants have sprung up under stairways and in any place wherein guests may be fed. Hotel men here estimate there were more than 40,000 persons visited the town during the past summer, including a few thousand who annually come to Estill Springs, a summer resort in the hills back of Irvine.

The petroleum pilgrims who have collected here are of all types and stations in life. Oil has been the attraction in all cases, but different phases of the business have proved magnets in various cases. The majority of the operators now living in the Irvine field are old and experienced in the business. They have for years drilled in various fields in separate parts of the country.

To them one day is much like the preceding ones. They drill wells, hit or miss, and then go on without being affected to any appreciable degree by their success or failure. Hardened by long experience in oil fields, they go about their business as devoid of emotions as does the grocerykeeper around the corner from your home.

It is different with other of the oil operators. In the Irvine field there are several farms leased to multimillionaires who are drilling for oil because they can't resist the element of chance involved. To them it is all a game. A few thousand dollars lost in "dusters," the term used by oil men to describe dry wells, is to them as nothing. On the other hand, they get more joy out of striking oil than a dyed-in-the-wool gambler gets out of "getting 'em back to back" in a big game. They also love the experience of roughing it in the oil field, as is the case of Van Camp, of pork and bean fame, who rode horseback over the Estill county hills during all of last summer watching "rigs" at work on land controlled by his leases.

There are still other operators in the Irvine field who got into the oil "game" only after they had amassed comfortable fortunes in other lines of business. Some of the operators are drilling "with their backs to the wall." Several who have been active in the Irvine field have sunk their last dollar in a well, only to find it a "duster."

THE JURY DISAGREES IN THE COMBS CASE

**EXTENT OF PUNISHMENT PRE-
VENTS VERDICT IN CASE OF
HARDIN'S SLAYER.**

In the case of Hugh Combs for killing Jerome Hardin, tried at Catlettsburg, the jury failed to agree and was discharged. Combs' bond was fixed by Judge Halbert at \$5,000.

It is said the jury agreed as to guilt, but hung on the extent of the punishment. At first, according to reports, one man stood for electrocution, ten for a life sentence and one for a twelve years imprisonment. The latter would not change his position. The juror favoring death finally agreed to life imprisonment, it is said.

Combs is a native of Lawrence county. He moved from Catt to Catlettsburg with his father Hugh Combs about twelve years ago.

The case will be tried again at the next term of the Boyd Circuit Court.

JEFF HARRIS TO MANAGE STOCK FARM IN CAROLINA.

Jeff Harris, referred to in the following article, is from near Williamson, W. Va., and is a graduate of the Agricultural department of Kentucky University. He has visited in Louisiana:

W. J. Harris, 1916 graduate of the College of Agriculture of the University of Kentucky, and formerly farm editor of The Herald, will leave Lexington early next week for Calhoun Falls, S. C., to take charge of a 15,000-acre plantation, the property of Col. Patrick Calhoun, a wealthy man of Cleveland, O.

Colonel Calhoun has decided that the plantation, which has been used for cotton raising for a number of years, be turned into a horse farm and the change will be made as rapidly as possible. Mr. Harris, on leaving here next week, will take with him a carload of Bluegrass horses, which will be purchased this week, as a nucleus for the transformation of the plantation.

Until recently Mr. Harris has been an instructor at the university in the Agricultural department.

VISITED OLD HOME.

Mr. William O'Brien, one of the former pioneer citizens of Williamson, but now retired to his country home in Lawrence-co., Ky., is visiting old friends here, who are always glad to see him. He returns to his home today and we wish him all manner of peace in his quiet retreat.—Williamson, W. Va., News.

EASTERN KENTUCKY POSTOFFICE BUILDINGS

THE SUBJECT OF WARM DISCUSSION IN CONGRESS LAST WEEK.

In Congress last week the bill appropriating money for public buildings was up and the discussion was quite interesting.

Congressman Frear opposed a great many of the items, including the one for Pikeville, on the ground that the population and postal receipts were not sufficient to justify the items, and also for the reason that the maintenance of the proposed new buildings would be greatly in excess of the rent now paid by the government for leased quarters. In the case of Pikeville the annual rent paid for the present quarters is \$332 a year, while the maintenance of the proposed building to be erected at a cost of \$25,000, according to Treasury Department figures, will be \$3,500 a year, more than ten times, Mr. Frear said.

The Pikeville item was retained. Representative James, of Michigan, called attention to the eleven bills introduced by Representative Langley for buildings in his district. "Here are eleven bills, and I judge the gentleman from Kentucky believes this kind of legislation should go thru," said Mr. James, "but that is simply a matter of opinion between the gentleman and some others. Here are the bills which the gentleman has introduced:

"Whitesburg, Ky. with 321 people all that is asked for is \$75,000; McKee, Ky., 146 people; Hindman, 370, Salsersville, 310; Jenkins, 1,897; Booneville, 236; Inez, Ky., not in the census of 1910; Hazard, 537 people, and Prestonsburg, 1,120 people."

"They are not in this bill, if the gentleman will permit me," said Mr. Langley.

"No; but it is not the fault of the gentleman from Kentucky," replied Mr. James.

Mr. Langley said: "Oh, yes, it is. I only asked for what I regarded—"

"I do not believe that the gentleman from Kentucky would introduce a bill either for a pension or a building that he did not think ought to go thru," Mr. James interrupted to say.

"Ultimately, yes; but not all in one lump. The trouble about the gentleman is that he has not been here long enough to know how business is run. He is wasting his time," replied the Kentuckian.

"I sincerely hope I shall be here long enough to see McKee, with its 146 people, with a population that will entitle it to a public building," said Mr. James. "The gentleman laid a good deal of stress on the fact that Hazard was entitled to a building because they were going to use it for a mine rescue station. Now, they do not establish a mine rescue station as permanent propositions. It was so stated at the hearings in behalf of the bill. They are only put there until such time as the operators or the authorities themselves can take them over. So when you give a building for Hazard, Ky., because of its going to be used for a mine rescue station, you are only wasting your time."

When Barbourville's \$25,000 item "for a postoffice and other purposes," was reached, Representative Frear declared that Barbourville's population in 1910 was 1,633, and its postal receipts last year \$4,532, that the rent now paid is \$406 a year, and that maintenance on the new building will be \$2,800 a year. He said that "for other purposes" was put into the item merely to get beyond the postoffice only, and said that the proposal to use the building as a mine rescue station is a subterfuge.

The Kentucky towns sharing in the appropriations, and the amount they received, are as follows: Barbourville, \$25,000; Central City, \$30,000; Eminence, \$40,000; Falmouth, \$25,000; Hazard, \$40,000; Hickman, \$5,000 for a site; Madisonville, \$40,000; Murray, \$25,000; Pikeville, \$35,000; Pineville, \$5,000 for a site; Russellville, \$10,000 for a site; Shelbyville, \$25,000 for extension of present building and purchase of additional ground, and Stanford, \$5,000 for a site.

The bill now goes to the Senate, where it will encounter determined opposition. President Wilson has given notice he would veto the bill if passed.

ENTERTAINED IN NEW HOME.

Mrs. Victoria V. Prichard was hostess on Tuesday afternoon to members of the flinch club and other friends. There were four tables and progressive flinch was the game of the afternoon. A number of interesting games were enjoyed and at four o'clock Mrs. Prichard, assisted by Mrs. Dora V. Greever, served a delicious salad course. This, the first party given by Mrs. Prichard in her handsome new home, was a pleasurable occasion to all present. The guests from a distance were Mrs. Walter E. Morris, of Edinburg, Ind., and Mrs. Jack L. Richmond, of Richmond, N. Y.

LEE CITY MAN IS SHOT.

W. L. Nichols, of Lee City, shot thru abdomen, was brought to St. Joseph's hospital on the Lexington & Eastern train. His condition is critical, though the attending physician said early this morning that it appeared favorable. Nichols' story is that he was on the train between Jackson and Cannel City when a passenger, whom he says was Andrew Phipps, alighted and turning, shot him. He said he knew no reason for the shooting.—Lexington Herald.

MOSLEM RITES GIVEN YOUNG ASSYRIAN PEDDLER.

Ashland, Ky., January 22.—The body of Samuel Smiley, an Assyrian peddler, who was killed and robbed near Raleigh, W. Va., was brought here, and a Mohammedan funeral service was held over his remains. More than 100 Mohammedans were present to attend the service.

Smiley was 19 years old and had been in this country three years. The Assyrians who attended the funeral all came from Damascus or Jerusalem, near where young Smiley was born.

The young man was of the highest character.

SHIP POTATOES FROM ENGLAND TO CHICAGO.

Chicago, January 22.—High prices paid for potatoes on the Chicago market have attracted shipments from England to compete with the American grown product, according to a statement today by Sol Westerfield, former president of the National Retail Grocers' Association. "It seems almost impossible that England at this time can send potatoes to Chicago to compete with the product grown in Illinois, Wisconsin and other Western States, but I have seen the bills of lading," he said. Potatoes on the Chicago market are selling today at \$2.25 a bushel.

MRS. MCCLURE CELEBRATES HER 80TH BIRTHDAY.

The 80th birthday of Mrs. Martha McClure was made a very happy occasion by the thoughtfulness and efforts of her family. Her son Dr. W. B. McClure came from Lexington and spent the day. A number of friends and relatives were invited in during the day, bringing good cheer and congratulations, flowers and other remembrances. Mrs. McClure is one of our finest types of the best motherhood. She entered heartily into the enjoyment of the affair. Mrs. Carrie Adams, granddaughter, who lives with Mrs. McClure, is entitled to much credit for the success of the celebration.

FOUND DEAD IN A CATLETTSBURG HOTEL.

J. Sidney Stone, of Williamson, W. Va., a civil engineer, was found dead in his room at the Alger House in Catlettsburg Wednesday morning. He had been registered there for two days. He was a wife and children.

FALL IN ELEVATOR SHAFT FATAL TO STEVE BACOOK.

Catlettsburg, Ky., January 20.—Steve Bacook was instantly killed today at a saloon by falling down an elevator pit. A wife and several children survive.

A GREAT CHANCE FOR OUR FARMERS

**EARLY IRISH POTATOES SURE TO
BRING HIGH PRICES THIS
YEAR.**

A man whose experience and judgment is worth while says that every farmer in this vicinity who will grow five acres of Irish potatoes this year will have from \$1,500 to \$2,000 in cash to show for it, if the season is fair. In order to do this he must grow the earlier varieties best suited to our soil and climate and properly cultivate and take care of the crop. Send to the Department of Agriculture at Washington and the Experiment Station of Kentucky University at Lexington for bulletins on potato growing. If you want to know anything not covered in these bulletins, write the Experiment Station.

Don't conclude you know all about growing potatoes and do not need any further information. We remember a case of a Lawrence county farmer who attended a farmer's institute at Louisa at the time the first boys corn club was organized. A lecturer told how to prepare and cultivate corn. He said the old method of plowing deep the last time was wrong and did great damage to the corn. Breaking up the roots at this time stops growth until nature can repair the roots and start them again to sending nourishment to the stalks and ears. Surface cultivation only should be done at that time. The farmer referred to took issue with the lecturer, saying he had been growing corn all his life and did not believe in this new theory. Two of his boys joined the corn club and followed the printed directions furnished for planting and growing the crop. One of them won first prize in the county and the other got a smaller prize. They had raised about 100 bushels to the acre, as we now recall. The father always thought he was doing well to get one-fourth of that amount per acre. He was converted to modern methods, it is needless to say.

The same is true of potato growing, no doubt. Be progressive and willing to learn. It pays big. If your land needs some fertilizer or lime, put it on and get your money back ten fold. Now is the time to get your literature, pick out the plot of ground for potatoes, and plan for the season.

We have heretofore explained the basis for believing that early potatoes will be high this season. The north is where most of the potatoes are grown and we can get our crop on the market long before theirs mature. The present shortage insures high prices for early crop.

OIL DEVELOPMENT IN LAWRENCE COUNTY

**COMPANIES ORGANIZED BY COL.
LABBEE PREPARING FOR
BIG YEAR'S WORK.**

The following is from the Herald-Dispatch:

That the average Huntington business man would be surprised as well as intensely interested were he set down unexpectedly in Lawrence-co., Ky., the heart of the present oil and gas activities in the Big Sandy valley, was the statement of Col. M. R. Labbee, who was in Huntington yesterday buying supplies for some of the numerous operations in which his companies are interested.

For several months development has been going on at a rapid rate, and leases on both sides of the Big Sandy are being improved by the score. On the Big Blaine, Twin Branch and Morgan creek alone in the Lawrence-co. district, \$500,000 is to be expended at once in drilling operations.

Col. Labbee, who organized the Louisa Coal, Gas & Oil company, of which George P. Daniels, a Cincinnati capitalist is president, is general superintendent and field manager for these extensive operations, including the Croftville Oil and Gas company, stated to the Herald-Dispatch last night that Lawrence-co. and adjacent sections of the adjoining counties are now a network of pipe lines for oil and gas, and that hundreds of pumps are drawing high grade oil from wells already drilled in and producing steadily. These wells, as a rule, produce from two to fifteen barrels of high grade oil per day of twenty-four hours.

This field, Col. Labbee states, is also rich in gas which is particularly rich in gasoline properties, and several by-product manufacturing are projected for the coming spring.

Many Huntington business men have interests in this field, the holdings of J. E. Thompson, who derives a large monthly income from producing wells, being probably larger than those of any other local man.

Col. Labbee, who has spent several years prospecting and securing leases, is also making plans for extensive developments in Johnson-co. and these plans are already under way to maturity.

He believes that Eastern Kentucky one of the greatest undeveloped coal fields on earth, will become also one of the greatest oil and gas fields—not on account of sensational gusher oil wells, but because of a myriad of small wells, producing eight or ten barrels of high grade oil per day and running consistently for forty or fifty years.

KILLS WIFE, MOTHER-IN-LAW; FATALLY WOUNDS ANOTHER.

Huntington, W. Va., Jan. 20.—Harry Terry, formerly of Cincinnati, tonight shot and killed his wife, Mrs. Lillian Black Terry, and his mother-in-law, Mrs. Victoria Black, and fatally wounded his wife's cousin, Mrs. L. M. Spurlock.

Terry was arrested late tonight and, according to the police, declared the mother-in-law and cousin were responsible for a suit for divorce filed by his wife.

DIES AFTER SHORT ILLNESS.

Mrs. Jas. Whitaker died after a short illness of heart trouble at her home at Toll Gate, W. Va. Her body was brought to this place and taken to the home of her parents, Mr. and Mrs. Jno. L. Vaughan on Lick creek.

She is survived by her husband and five small children, the youngest only six weeks old. She was a devout christian and member of the Baptist church.

The funeral and burial took place on Saturday and services were conducted by Revs. H. B. Hewlett and S. F. Reynolds, of this city.

STRUCK BY TRAIN.

Ashland, Ky., January 20.—A buggy, occupied by Henry Donta, superintendent of the Boyd County Home, and Mrs. Leander Rhodes, an employee of the home, was struck at the depot crossing by C. & O. train No. 1, and the two were hurled fifty feet, they escaped serious injuries. The horse was so badly hurt that it had to be killed.

F. M. BOOTH DEAD.

Wayne county has sustained the loss of another prominent citizen. F. M. Booth, of Wilson creek, died last Wednesday. He was seventy years old and was well known throughout the county.

MOVED TO LOUISA.

Richard Queen, formerly of this county, and who for a number of years has lived in Catlettsburg and Portsmouth, O., has moved to Louisa, from Portsmouth and is occupying the residence on Main-st. next door to the Baptist church.

ELECTRIC LIGHT PLANT.

A company is being organized to put a large electric light plant into Louisa. The next meeting of the city council will be asked for a franchise. It is said a cold storage and ice plant in the same connection is contemplated. We hope the enterprise will be established.

NEW CANDIDATES.

We call attention to new announcements appearing in the NEWS this week as follows: Sam Sturgell, Isaac Adams and Frank Pigg for Jailer and V. B. Shortridge for State Senator.

IMPORTS FROM KENTUCKY AIMED AT BY NEW BILL.

Charleston, W. Va., Jan. 23.—A bill aimed to stop the importation of intoxicating liquors into the State was to-day introduced in the West Virginia Senate and House of Delegates. The bill would make it a misdemeanor for any person to bring into the State more than one quart of intoxicating liquor, during a period of thirty days. Common carriers knowingly permitting a violation of the act would be liable to a fine of not less than \$200. Since West Virginia became a prohibition State, large quantities of intoxicating liquors have been brought into the State from Maryland and Kentucky, special trains having been run for that purpose on some of the railroads.

DEATH LIST THREE; OLD CELLS TO BE REPAIRED.

Frankfort, Ky., January 10.—The death list resulting from the fire which swept cellhouse A at the State Reformatory here Monday night was increased to three late today when Will Jones, a negro convict, died of burns received before he was rescued from his cell. The other two victims were suffocated in their cells.

The Prison Commission will repair cellhouse A and use it until the Legislature sees fit to make an appropriation for an up-to-date building. The commission can use \$10,000 for this purpose.

FEARS HER DAUGHTER HAS BEEN KIDNAPED.

Lexington, Ky., January 22.—Mrs. W. E. Watts, of Carbonhill, Ala., fears that her daughter, Mrs. Jewel Turpin, 18 years old, has been killed, kidnaped or met with foul play, en route from Fleming, Ky., to her home via Lexington, and has written to local officials to start an inquiry. The young woman left Fleming, a mining camp near Hazard, on January 12, planning to change cars in Lexington and go on from there to Alabama. Nothing has been heard from her since she left Fleming. A photograph of the young woman accompanied the letter.

ATTORNEY WHITT IS MARRIED.

Attorney Beecher Whitt, who came to Ashland about a year ago from Maffin county, and Miss Minnie Conn, daughter of Mr. and Mrs. R. C. Conn, of Catlettsburg, were united in marriage Sunday at the home of the bride. The ceremony was performed by Rev. John Litteral of Johnson county. Mr. and Mrs. Whitt will reside in Ashland.—Independent.

DIED OF APPENDICITIS.

Robt. Hayslip, Jr., of Mavity, Boyd county, died Wednesday of appendicitis. He was the seventeen year old son of Robt. Hayslip.

DEATH REMOVES TWO SUBSTANTIAL CITIZENS

**J. M. RIFFE AND J. P. BILLUPS, OF
ADVANCED AGE, PASS
AWAY.**

Hon. Jerry M. Riffe, whose illness was mentioned in the NEWS last week, died at his home near Yatesville on Wednesday and was buried on Thursday. He was 81 years old January 8. His wife died only two years ago. He is survived by four sons, W. J. of Ratcliff, John B., of Louisa, Lee, of Yatesville, and Jerry Riffe, Jr., who lives in the west.

Deceased was a member of the Christian church and a preacher of that denomination. He was also a lawyer and was active and successful in the practice. His influence was always on the side of right. He was one of the pioneers in prohibition work and did effective service in this cause. His death removes a useful citizen, one who had devoted much time to helping others. He was a man of more than average intelligence and information and he used his ability to good advantage. He was born in Carter county but came to Lawrence many years ago and located on a farm near Yatesville. His son, John B. and family of this place, attended the funeral yesterday.

James P. Billups.

James P. Billups died at his home near Port Gay on Wednesday of this week and was buried yesterday on Tabor creek, near the Billups Gap. Brights disease, from which he had long been a sufferer, caused his death. He was 69 years old, and was a brother of ex-Sheriff John Billups. Deceased was one of Wayne county's best citizens. He was a farmer and stock dealer and had been successful in business. His death is a loss to the community.

MUSIC IN PUBLIC SCHOOLS.

Prof. W. C. Hunter is teaching the rudiments of music in the public schools of Louisa. This is a good move. All modern schools are doing this. The children are entitled to an opportunity to get a start in this accomplishment which plays so large a part in the affairs and refinement of life. The school board should arrange to make it a permanent feature. At present the pupils are paying for the service.

NEW TRIAL GRANTED.

Sarah Day, convicted of poisoning her husband, James Andrew Day, at Enterprise, Carter-co., and sentenced to life imprisonment, was given a new trial by the Court of Appeals. She and Bob Sparks were jointly indicted.

THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

It is claimed that all the presidents of the United States had good mothers. It is said that John Q. Adams until the day of his death said the prayer his mother had taught him. Lincoln said, "All that I am I owe to my mother." Garfield kissed the wrinkled face of his mother on the day of his inauguration and said, "You brought me to this." Grover Cleveland said, "Worldly honors or worldly perplexities will never cause me to forget the lessons my mother taught me." As the shadows lengthen, the memory of a mother's love becomes intensified. The vision grown dim with age becomes clear and pictures of childhood days rise before us in their perfection. It is well so few instances are on record where a mother has failed to impress her children with the value and purity of a mother's love.

spirit of contentment. Beauty fills the world, as well as heaven, if we have eyes to see it. It is open to all. The rose is as fragrant, the lily as white, and the hyacinth as delicately blue, when cultivated by the poor, as by the jeweled fingers of the wealthy.

It is the mothers who hold the world in place. They are the balance wheels of the universe. They hold the scepter of power by controlling the affections of men. "The hand that rocks the cradle" has controlled armies. Marie Theresa quelled the tumult of a mighty army in Austria by raising her fair hand, and we are told that all was hushed to silence, as in clear, sweet tones, she spoke: "The bravest battles that ever were fought by the mothers of men."

To make a boy into a pure man, a mother must do more than pray. She must live with him in the sense of comrade and closest friend. She must stand by him in time of temptation as the pilot sticks to the wheel when rapids are around. She must never desert him to go off to superintend outside duties any more than the engineer deserts his post and goes into a baggage car to read up engineering when his train is pounding across the country at forty miles an hour.

The will to do invariably sees that it is done.

Only a smile! But ah! how it cheered the broken heart, engendered a ray of hope, and cast a halo of light around the unhappy present; made the bed-ridden one forget its present agony for a moment as it dwelt in sunshine of joy and lived in the warmth of that smile. Let us all increase our giving of smiles. They cost nothing and are of untold value, especially in the Home Circle.

Be as careful to keep the weeds out of the minds of your children as you are to keep them out of your garden. But remember something will grow there. If you don't plant them with good grain, the tares will take root in spite of you. Keep a library of good clean books, and by all means keep your home paper before them.

What a happy world this world would be if the innocence of childhood's tender years could be carried thru age. So while we are training them in the way they should walk, let us watch our own footsteps, and not cut off their harmless mirth to suit our tastes that have grown sombre with age and care.

Carrying a rabbit's foot in your pocket may bring you good luck, but perseverance and hard work gets you the moon.

A good front is a good thing in business, but the back must also keep the pace.

Let method be your servant and not your master.

You never have to speak twice to start a knocker to going.

EAT WITHOUT FEAR ON INDIGESTION OR SOUR, ACID STOMACH

INSTANT RELIEF! "PAPE'S DIAPESIN" ENDS YOUR STOMACH TROUBLE FOREVER.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stubborn lumps, head dizzy and aches; belch gases and acids and eructate undigested food, breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

OBITUARY.

Fred, beloved son of Lewis and Cynthia Nunley, departed this life Dec. 14, 1916, with that dread disease consumption, age 26 years. He was loved by all who knew him. It is sad that one so young and so well beloved should have to die, but we all must bow to the will of Him who doeth all things well. Weep not for dear Fred, but rather prepare to meet him in that home that he told us so much about. He said that he would willingly die that they would make an unbroken family around the throne in heaven. His funeral was not preached on account of absence of relatives, but will be preached later on. He was the second out of a family of twelve children to die, the other one, a boy, died at the age of 9 years.

ONE WHO LOVED HIM.

A FEW FACTS ABOUT COUGHS AND COLDS THE PUBLIC SHOULD KNOW

Whether this Cold will prove a simple catarrh of the nose and throat or but short duration and mild character; whether dread Pneumonia, with its sharp and fatal sting, shall be the sequence; or whether the blighting blast of the White Plague shall sit spectre-like upon its victim no one can foretell; hence the great importance of treating all colds, however mild, promptly and energetically. In urban populations the services of a skilled physician is always within call, but in rural district, distance and inclement weather often act together to forestall the doctor's timely aid, so that valuable time is particularly for this latter class of sufferers that MEINHARDT'S GERMAN COUGH REMEDY was invented.

"PAPE'S COLD COMPOUND" ENDS
A COLD OR GRIPPE IN A
FEW HOURS.

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stuff up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

A BOY'S SUCCESS IN RAISING BABY BEEF

An excellent record has been made by an Iowa boy, a contender in the baby beef contest conducted by the Iowa Beef Producers' association, says the Iowa Homestead. This contest began Nov. 1, 1915, and on the opening day Donald C. Hill of Corning, Ia., selected from the pasture a calf three and one-half months old and put him on the scales. He weighed 360 pounds, a promising youngster, we will all admit. This calf was out of a grade Angus cow and sired by a pure bred Hereford bull, so that he came honestly by his beef tendencies.

This calf was allowed to run with his dam for several months, and during this time he put on a gain of practically 100 pounds per month. He was fed grain twice a day, the ration being composed of shelled corn, oats, bran and linseed meal, and in addition the youngster had all the clover or alfalfa hay that he needed. On the anniversary of the day on which this calf was started in the contest he tipped the scales at 1,170 pounds, so that here we have a boy bringing a calf fifteen and one-half months of age to a weight of

Hereford cattle are descended from one of the aboriginal breeds of Great Britain and as a distinct breed have a long lineage. Because of their early maturing qualities Herefords are excellent for the production of baby beef. As meat producers they rank high and have long been popular for their grazing qualities. They make their best beef at an early age. The bull shown is a Hereford.

nearly 1,200 pounds. A gain of 810 pounds was made during the twelve month period. A record was kept of the cost of every mouthful of feed consumed, and at current market prices on the various products it was found that each pound of increase in weight cost practically 7 1/2 cents.

At the close of the experiment the youngster was shipped to Chicago and sold for \$10.60 per 100 pounds. It is an excellent thing from the standpoint of a calf to fall into such hands as did this one, but the arrangement was a reciprocal one, and it may be assured that the calf did even more for Donald C. Hill than the latter did for the youngster, and this is the whole purpose of the baby beef feeding contest. It is to get the rising generation interested in beef production, and when a record like this can be made the first year who can say what may yet be accomplished by hundreds and even thousands of boys in the future if they undertake work of a similar character? It may be mentioned that Donald has already selected his calf for another year, and with such knowledge as he acquired during the last twelve months he is determined to make this one excel the record of the Hereford-Angus youngster that he has just marketed for upward of \$130.

Breeding Old Sows and Gilt.
It is an easy matter to find men who will take sides on the question of using gilts or old sows for breeding purposes. Ordinarily it is a good thing to have a few of each. The old sow will bring through larger litters, but of course there is considerable outlay for wintering, whereas the gilt may raise a fairly good litter and be ready for market ninety days after her pigs are weaned. This plan has been followed by many successful men for a series of years with good results. Mature stock is more to be advocated in the case of those who handle pure breeds, where closer attention is given in caring for the litter and where great importance is attached to growthiness. The old sow's pigs will be larger and sturdier at six months than will pigs from a gilt, and this is of some importance to those who are raising pure bred hogs.—Iowa Homestead.

The Farrowing Sow.
Don't change a sow's nesting place at farrowing time. If she is in a straw stack leave her there until the pigs can walk home. Be sure, of course, that she is well fed and warm.

LIVE STOCK HUSBANDRY

SILAGE FOR SHEEP.

When Sound and Free From Mold It
Furnishes an Excellent Roughage.

The common impression has been that silage cannot be safely fed to sheep, and it is true that sheep have

Within the past few years the Oxford Down breed of sheep has made steady progress and is in ever increasing demand. This breed needs little recommendation to practical farmers. The rams at two years of age often weigh 300 pounds. They also produce a good fleece. Their hardiness and good feeding qualities are other reasons for the Oxford's popularity. The lambs grow rapidly and will eat grain when two weeks old. The illustration shows an Oxford wether.

been injured by silage, says the Kansas Farmer. In nearly every instance, however, it has been found to be due to the carelessness of the feeder in permitting the sheep to have access to partially spoiled silage. Sheep are very susceptible to moldy or spoiled feed of any kind, and in feeding silage to them only that of good quality should be used.

Silage has been found to be a most profitable feed for sheep by some of the largest sheep feeders in Kansas. A. L. Stockwell of Pawnee county has several large silos and for some years has been feeding silage to sheep. He ships in lambs by the thousand and finishes them by using silage and alfalfa as the roughage ration. The experiment station has likewise found that silage can be fed with safety provided the feeder is careful to sort out any moldy silage that may be found.

Frank McRoberts, one of the most successful lamb feeders in Missouri, in speaking of his feeding operations at the sheep feeders' meeting in that state said that he had fed silage in connection with corn, cottonseed meal and some hay for four years and had found it most profitable. He learned that

lambs do not begin to eat silage unless rather hungry. It seems to be necessary for them to acquire a taste for it. He has found it much easier to start them in by giving a small amount when they first arrive at the feed lot, gradually increasing it until they are getting about all they will clean up in an hour and a half after turning them to the feed troughs. He called attention to the fact that when a spot of mold was found in the silage he always took special pains to sort this out. This feeder has had excellent results from the following daily ration: Corn, one and one-quarter pounds; silage, two pounds; cottonseed meal, one-quarter pound, and all the hay the lambs would eat. This usually amounting to a quarter to a half pound daily per lamb.

Tankage For Fattening Hogs.

Hogs in the cornfield or on a full feed of corn should have tankage or linseed oil meal to balance the ration. In "hogging down" corn hogs should have access to tankage in a self feeder. In this way they balance their own ration and save the labor of husking the corn and the feeding of the tankage by hand. Even when fed by hand hogs should have a supplement of tankage or oil meal in order to stimulate the secretions and digestion and build framework and muscle as well as make fat. Tankage or oil meal may be fed in a slop or dry in a trough. Either way is satisfactory. About one part of tankage to ten parts of corn will make a balanced ration, while one part of linseed oil meal to every six parts of corn will balance a ration. Young pigs and shoats need more protein than older hogs. As the hog grows older and fatter the protein supplement may be decreased somewhat and good results secured.—S. T. Simpson.

Watch For Lumpy Jaw.

Considerable loss occurs through the condemnation of the heads of beef animals because of "big jaw" or what is perhaps more commonly known as "lumpy jaw," says the Kansas Farmer. It not only affects cattle, but is troublesome to man. Treatment of this disease is very successful if taken in the early stages, and even when it is well advanced it can be controlled in many cases by a competent veterinarian. There is some question concerning the direct transmission of this disease from one animal to another, but there is no question about the folly of taking a chance on any loathsome disease among animals on the farm. Any nodule or abscess formation about the jaws or necks of cattle should be looked upon with suspicion and attended to at once.

The Hog's Quarters.

Small colony houses made tight to keep out the wind and cleanly bedded furnish a shelter that is warm enough, give the hogs fresh air and provide a sleeping place that may easily be kept dry and sanitary.

Opportunities

Opportunities for men of character are not hard to find. A bank account is an evidence of character and a bank book showing regular deposits is the passport to opportunity and the key to success. Enroll yourself as a depositor and become a member of the "Opportunity Club." That theoretically beautiful system, the commission form of city government, is giving Lexington an exhibition of how to play politics of the worst sort. It abolished an office to get rid of the head of a police department under the excuse of economy. The economy spasm lasted one month, when the commissioners exposed their hand by appointing enough additional policemen to increase the payroll \$6000.

250,000 FOOL AMERICANS BUTT INTO TROUBLE.

Paris, January 9.—"An American army of 250,000 men, trained on the battle fields of Europe in the world's greatest war, would respond to the call of the Stars and Stripes if they ever were needed," was the remark of a British officer here to-day. He declared it to be a positive fact that there are that many Americans now serving with the allied armies.

"These men are trained soldiers, every one of them. They have tasted battle, have smelled powder, been under bursting shells and have fought hand to hand in the trenches. They speak of preparedness in America, but here is where America is being prepared."

The officer, who is noted for his conservatism, declared that he has talked with Americans from every state in the Union except Florida. He declared that the men serving with the Entente armies either are adventurers, serving for the love of a fight, or thinkers, who believed that everything that stood for Americanism was being threatened in the world war.

ONE WAY FOR A FARM- ER TO MAKE MONEY.

If someone would offer a farmer \$100 a day for the next ten or fifteen days just to sit down at home and make some simple sprouting tests with seed corn, the farmer would jump at it. And yet, any farmer who grows corn and who has never selected by test the seed he plants, can make that much in that easy way now.

In Iowa last year Professor P. G. Holden increased the yield on 800 acres of corn eleven bushels an acre by simply testing the seed and planting that which was most nearly perfect corn. Corn was grown on the same land the year before and no change was made in method of cultivation.

Suppose a farmer increases his corn yield next summer ten bushels to the acre by testing and selecting his seed corn now if he plants 100 acres the increase would be 1,000 bushels. Corn is worth 70 cents a bushel; the value of the increase would be \$700. Pretty pay for a few hours' work extending over a few days at this time of year.—Kansas City Star

EVERY TIME WE WINK WE GIVE THE EYE A BATH.

Every few seconds we wink both our eyelids at once, although not purposely. If we stop winking, our eyes become uncomfortable and gradually cease to work as they should. When the eye is open the front of it is exposed to dirt and dust and is apt to become so dry that a painful stinging sensation moisture were not provided to cleanse and soothe the tissues.

As a matter of fact each time we wink we wash the eye, says the Popular Science Monthly. Up above each eye is a tiny water bag called the tear gland, and all the time we are awake it makes tears. When the front of the eye feels itself becoming a little too dry or dusty a communication is sent for a supply of moisture. The eyelid then comes down with a tear inside it to wash clean the front of the eye. This is the most gentle and perfect washing in the world.

VIRGINIA GOING INTO ELK RAISING BUSINESS.

Bristol, Tenn., Jan. 22.—The State of Virginia will experiment in the development and production of elk herds. The first consignment of sixteen elk has just been received at Arcadia. Botsford-co., that State, and will be cared for there until spring, when the animals will be turned loose in the mountains of the region. They were captured in the Yellowstone Park reservation by Howard Eaton, a veteran hunter and ranchman. John H. Parsons, State Game Commissioner, has arranged for bringing another consignment of 100 head to the Virginia mountains. It is the opinion of the State game authorities that Virginia will prove a choice abode for elk herds.

MOUNTAIN LASS HAPPY THOUGH EYESIGHT FAILING.

A pathetic case under the care of the Mountain Fund was brought to attention yesterday by Miss Neville, manager of the Mountain Fund. A little girl, from a county where no hospital or oculist is obtainable, is slowly going blind. A year ago she was in the Good Samaritan hospital and one of her eyes was removed. The doctor and nurses knew that blindness was only a matter of time, but the child went home happy because she did not realize her future.

In a year the other eye had failed her and the fund brought her to Lexington again, and, though the child still does not know, her sight will last only a few weeks longer. She is happy now with a doll which a very busy woman found time to dress for her to see during these remaining weeks. Yesterday the photograph of the child and her doll was taken for the use of the Mountain Fund campaign.

The little girl is quite sure that the doll's photograph is the reason for the trip down to the photographer. She walked with the hand of a friend guiding her. She calls this friend her "part-

ner," but insists that the doll is "next to me of all my partners."

Miss Neville said that the blindness of this child was unpreventable. "But," she added, "we at least have the satisfaction of knowing that it has not been through neglect. The Mountain Fund is trying to put blindness out of Kentucky for every child, east or west, black or white. Sometimes, as in this case, even science fails. But oftener we are able to give sight to a child who, but for the Mountain Fund, would be blind."—Lexington Herald.

MORGAN COUNTY WEALTH.

West Liberty, Ky., January 20.—The financial world seems to be awakening to the fact that Morgan county has the largest canal deposits of any like territory in the United States. Following the operations at Cannel City, which have been in progress for some time, the Elk Fork country on the north side of this county is being rapidly taken up by purchases and options. A narrow-gauge railroad has been completed from Redwine, the terminus of the Morehead & North Fork railroad to the mouth of Straight creek, which is in the heart of the heaviest canal coal in the Elk Fork country. And while the new extension is only being used at present as a timber road, it is significant that the grade is sufficient to carry a standard-gauge road, and it is believed locally that deals are now pending that will result of the laying of standard-gauge track. A railroad line has also been recently surveyed thru the Elk Fork canal coal fields into this same Elk Fork section.

It is reported here that R. H. Vansant, of Ashland, has purchased the big lumber mill of the Whisler & Searcy company at Farmers and all of the holdings of this company on the Licking river. It is rumored that other important deals are pending which may involve the largest of the immense tracts of timber still standing in Morgan county.

HUDDLESTON LEFT HEAVY INSURANCE.

Huntington, January 20.—The entire family of C. C. Huddleston, head of the Huddleston Lumber and Supply company, who was shot to death by Robert B. Franklin on a train in a tunnel, near Hazard, Ky., recently, will receive a share in his extensive insurance, amounting to \$75,000 under the terms of policies.

Huddleston, it is understood, had his wife and each of his three children provided for by policies.

TAKING EVIDENCE.

John S. Osborne, a prominent attorney of Louisa, Ky., is in the city taking evidence in the case of Wellman, administrator vs. the Ohio Valley Electric Railway company. Wellman's son was killed while employed by the railway company in this city. Suit was brought for \$50,000 damages in the Boyd county circuit court, under the Interstate Commerce act. Prominent Louisa and Ashland attorneys are associated with Mr. Osborne in the prosecution of the suit.—Huntington Herald-Dispatch.

CANDIDATE FOR CO. ATTORNEY.

The following item from Winchester refers to Herbert H. Moore, native of Lawrence county:
H. H. Moore today announced as a candidate for County Attorney, subject to the action of the Democratic primary on August 4. He is at present City Attorney.

During the recent presidential campaign he made a number of stump speeches over the State in the interest of President Wilson.

Mr. Moore is a graduate of the law college of the University of Kentucky, at Lexington.

MAY BUY TIMBER LANDS.

Morton Hammond and Henry Fischer are going over the McClure timber lands on Griffiths creek, near Gallup, with a view to purchasing. The tract covers about 1000 acres. If the deal is made they will put some mills on the land and cut the timber into lumber.

IN MEMORY.

On January 16th the angel of death visited the home of Mr. and Mrs. Garfield Hays, of Overda and took from them their eldest son, Braddie, age 22 years, 4 months and 3 days. Death was due to measles and bronchial pneumonia. He was an industrious young man of good morals and high standing. His untimely death has caused much sorrow in the neighborhood where he lived. He died in full triumph of a living faith for all with him was well. Let us all take God at his word and trust him a little longer and we'll meet Braddie again. He leaves a father, mother, three sisters, two brothers and a host of friends.

The golden gates were open,
A gentle voice said "come,"
And angels from the other side
Beckoned our loved one home.

Weep not, dear parents, for Braddie, he will greet you on the golden shore where parting will be no more.
He was laid to rest close to his home where he spent his boyhood days.

WANT A RAILROAD.

Maysville, Ky., Jan. 22.—Efforts are being made to extend the Brooksville railroad to Mt. Olivet, Robertson-co., the only county in the State without any kind of a railroad. The place has been completely isolated the past week, owing to the heavy snow making the roads impassable, and the people there are willing to do almost anything to get a railroad.

HAS LAGRIPPE.

J. J. Steele, C. & O. brakeman returned to his home in Ashland from Paintsville suffering with an attack of lagrippe. It will be several days before he is able to be out again.

MARRIED IN ST. LOUIS.

In the St. Louis Republic of last Thursday with a fine likeness of the lady in question, appeared the following:

"After a speedy courtship of four months, Harry B. Lauderman, Jr., widower and wealthy retired broker and Mrs. Mary B. Clapp, a widow, decided to 'steal a march' on their friends."

"They drove to Clayton and were married by Rev. Walter M. Langley, pastor of the Presbyterian church."

"Lauderman is 51 years old and his bride 39. He formerly was associated with the late James Campbell, millionaire broker. He since has had offices with his father, H. B. Lauderman in this city."

"Mrs. Lauderman is the daughter of Mrs. Elizabeth Bromley of 4150 McPherson-av. The family which was prominent in Kentucky came here two

A GOOD FRIEND

A good friend stands by you when in need. Louisa people tell how Doan's Kidney Pills have stood the test. Mrs. Pigg endorsed Doan's over six years ago and again confirms the story. Could you ask for more convincing testimony?

Mrs. Frank Pigg, Water St., Louisa, says: "I suffered for a long time with many distressing symptoms of kidney complaint. The most annoying ailment was severe pain in my back and a dull, bearing-down feeling through my loins. I was weak and languid, constantly tired and had no ambition. My back was in such a bad condition I couldn't stoop without enduring severe pain. I was restless at night and couldn't sleep. Mornings I was just as tired as when I went to bed. I was nervous, too, and suffered from severe dizzy spells. The action of my kidneys was irregular and caused me much annoyance. I felt like giving up, as nothing seemed to help me. I finally took Doan's Kidney Pills and the pains in my back left. The action of my kidneys became normal and the other distressing symptoms were removed."

Mrs. Pigg gave the above statement on March 29, 1910 and on December 4, 1916, she said: "The cure Doan's Kidney Pills made for me is still lasting. I now enjoy the best of health."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pigg has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

USEFUL NAIL KINKS.

Before driving nails into thin boards, fine furniture or anything that is likely to split or cause the nail to bend, first drive the nail into a bar of soap. The nail will then enter the wood more easily.

Before trying to pull an old nail out of a board or timber drive it in a fraction of an inch. It will loosen the rust around the nail and you will be less

likely to pull the head off. To pull big spikes, first pour a few drops of kerosene oil around the base and let it soak in. The spike will then usually come out with ease.

CARD OF THANKS.

We desire to express our sincere thanks to our many friends on Garred Branch who so kindly assisted us during the sickness and death of our little boy, Curtis Paul. MR. AND MRS. GEORGE ADKINS.

Memorial.

The death angel visited the home of

George and Martha Adkins December 14 and took from them their darling little boy, Curtis Paul, age 16 months. Curtis Paul was a bright little child and loved by all. Funeral services were conducted by Bro. Albert Miller, after which the body was laid to rest in the family graveyard on Shannon Branch. We want to say to the bereaved parents, weep not, for little Curtis, but only prepare to meet him in a better world.

BIRDS SUFFERING FOR FOOD, SAYS J. Q. WARD.

Frankfort, Ky., Jan. 18.—J. Quincy Ward, Executive Agent of the Fish and Game Commission, is back from Harland county where he superintended the placing of 10,000 rainbow trout in the Cumberland river.

While in Harlan county and visited the deer reserve. He counted sixty deer, which is about twice as many as were there last year.

The cold weather and deep snow is causing much suffering among the birds. The game wardens throughout the State and many farmers are feeding them. Executive Agent Ward thinks it would be a good idea if all citizens would take a little interest in the birds and scatter food for them.

CARTER COUNTY MURDER CASE REVERSED

COURT OF APPEALS REQUIRES NEW TRIAL FOR MRS. DAY.

Frankfort, Ky., January 19.—The jurors trying the case of the Commonwealth against Sarah Day, who is accused of having murdered her husband, James Andrew Day, in Carter-co., were not influenced in arriving at their verdict imposing upon Mrs. Day a life sentence by visiting a moving picture show portraying the murder of a husband by his wife. The Court of Appeals to-day reversed the judgment imposed on Mrs. Day, not for the reason that the jurors visited the picture show while considering the case, but because of erroneous instructions. Mrs. Day was indicted jointly with Bob Sparks, who is yet to be tried. She is accused of giving her husband arsenic and other poisons. The Court says that evidence of her alleged intimacy with Sparks should not be permitted to be introduced as it was to prove the charge of murder. Judge Sampson dissented.

30TH ANNIVERSARY OF THEIR MARRIAGE CELEBRATED

The Commercial-Appeal of Memphis, Tenn., has the following account of a happy affair in which the principals were well known Louisa people:

The manse of the First Presbyterian church on Carroll avenue was the scene of a most enjoyable affair yesterday, when the Rev. Dr. and Mrs. C. H. Williamson received their friends informally in celebration of the thirtieth anniversary of their marriage.

It was a very happy occasion, hundreds of the friends of Dr. and Mrs. Williamson calling during the afternoon and evening to extend their congratulations and good wishes.

The manse had been beautifully decorated for the occasion with Jackson vine and cut flowers, with hundreds of exquisite gift bouquets. A pink color scheme was carried out in the drawing room, where clusters of roses were artistically used with greenery. Here Dr. and Mrs. Williamson received their friends, assisted by their daughter, Miss Dorothy Williamson.

Mrs. Williamson was handsomely gowned for the occasion in gray tulle and Georgette crepe with lace garniture, with which she wore a corsage bouquet of violets and valley lilies, and Miss Williamson was lovely in yellow Georgette crepe.

Other members of Dr. and Mrs. Williamson's family and a number of the ladies of Dr. Williamson's church assisted informally in entertaining and inviting the guests into the dining room, where delicious refreshments were served. The tea table was draped in handsome lace over satin and beautifully decorated with yellow tulips. Here several specially invited friends alternated in presiding during the afternoon and evening.

Dr. and Mrs. Williamson were the recipients of many handsome gifts, including a Ford sedan, presented by members of the congregation.

Several hundred guests called between the hours of 3 and 5 in the afternoon and 8 and 10 in the evening and were most graciously received.

WILSON THE OLDEST PRESIDENT IN 60 YEARS.

Washington, January 23.—President Wilson is the oldest Executive to preside over the destinies of the United States for the last 60 years. When he is inaugurated for the second time March 5 he will be sixty years old, a span of years that no President has crossed since the inauguration of Buchanan in 1857.

Incidentally the President is one of the six oldest executives ever in the White House. Previous to 1861 the men chosen to hold the reins of government generally reached a late period in life before their election. John Adams was 61 when inaugurated in 1797, Jackson also was 61 when first inaugurated in 1829. Benjamin Harrison was the oldest man ever chosen for the Presidency, being 68 at the time of his inauguration in 1889. Taylor was 64 and Buchanan 65, respectively, when they were inaugurated respectively.

Aside from these all Presidents have been younger than Woodrow Wilson when entering the White House. This has been particularly noticeable in the last fifty years when all Executives have been comparatively young. Theodore Roosevelt was the youngest President ever inaugurated in this country, being but 42 when he took office.

THREE MORE WELLS ARE TO GO DOWN AT DENTON.

Excitement Runs High in New Oil and Gas Field and Many Leases Are Being Taken.

Three more wells are to be commenced within the next three weeks in the newly discovered oil and gas field near Denton in the eastern part of this county. Drilling is in progress at the Big Chance well where the sensational strike was made two weeks ago. W. S. Potter, who is in charge of the drilling at the Big Chance and who was here Saturday, reported that at that time they were down more than 800 feet. The rock pressure indicated a capacity of more than 2,000,000 cubic feet. The gas from the Big Chance is now under control and is being used to furnish light and power for further drilling operations.

Additional leases are being taken wherever they can be obtained in the eastern part of the county and the area in which leasing is now in progress is reported to be steadily spreading westward toward this part of the county.—Journal.

MORGAN COUNTY OIL COMPANIES CHANGE HANDS.

The Lexington Herald says:

Four Eastern Kentucky oil companies in Morgan county changed hands and a decision was reached to move the headquarters of the Elk Oil and Gas company from Ashland to Lexington at a conference of oil men in that county this week. Local attorneys who assisted in the negotiations returned to Lexington last night. Offices of the Ashland corporation will be maintained in the Security Trust company building.

The four companies which were transferred were the Grey Eagle Oil & Gas company, the Maple Leaf Oil & Gas company, the Cannel City Oil company and the Elkhorn Gas company. The properties were bought from the original owners by a group of oil men, headed by Dr. S. R. Collier, of West Liberty, veteran in the Eastern Kentucky oil fields; George I. Brown, a prominent engineer, of Red Bank, N. J., and other New Jersey capitalists.

The four companies have leases on 17,000 acres of the best oil land in Morgan county and have wells operating already. Contracts have been let for five other wells and drills are already at work on others.

Mr. Collier became prominent in oil circles several years ago. With John C. C. Mayo and Rufus Vansant, he organized the Elk Oil & Gas company at Ashland in 1908. He is president of the Commercial Bank of West Liberty and is said to be the wealthiest man in that section of the State. The Elkhorn Heat, Fuel and Light company, which furnishes gas and gasoline in Morgan county is headed by Mr. Collier, who also established the first newspaper at West Liberty.

Mr. Brown has been extensively interested in engineering projects throughout the country. He has built a power plant, electric and steam railroad near Red Bank, a railroad from Tuscaloosa to Birmingham, Ala., and has completed a number of projects in the west.

WINS STATE PRIZE FOR MOONLIGHT SCHOOL.

The State prize for the best moonlight school has been awarded to R. E. Jagers, a rural school teacher in Hart county. Mr. Jagers enrolled 228 students in his moonlight school, taught 6 weeks and redeemed 75 illiterates. He is to be honored with a trip to Washington City as a guest of Senator James Senator Beckham and Kentucky's Congressmen. He will be presented to the President by Senator James, and will be the recipient of many honors. Mr. Jagers says that he has greatly enjoyed teaching the moonlight school and that it has improved his day school attendance and aroused his community to better things.

The teachers who stood highest in the contest with Mr. Jagers were: Grover Sizemore, Leslie-co.; Lincoln Smallwood, of Clay-co.; F. H. Spicer, of Clay-co.; and Miss Julia Evans, of Paintsville.

Mr. and Mrs. Alvin Vaughan, of Kenova, W. Va., were called to this place by the death of their sister, Mrs. Whitaker.

Miss Della Nelson, of Paintsville, and Mr. and Mrs. Fred Remmele, of Butler, Pa., are guests of Wm. Remmele and family.

DEEGAN IS THOUGHT TO BE CRAZY.

Advices from Logan, West Va., confirmed the belief of the friends of Otis C. Deegan, Coal Grove boy, who confessed Monday in Norfolk, Va., that he is not guilty of the crime and that he is either insane or suffering from some temporary delusion. George Booth, whom Deegan told the Norfolk police, was innocent of the crime to which he confessed, was sentenced to prison on his own confession and the Logan county officials say that there is no doubt as to his guilt. The young man is not under arrest, and his confession has been discredited by the Norfolk authorities who are holding him only to give him over to the members of the family who are to go there for him.

The members of the family claim that Deegan was with the U. S. army stationed on the Texas border when the crime to which he confessed was committed and none of his friends in this city and Coal Grove will give the slightest credence to his story of the killing, believing that he is insane.

NEWS OF GENERAL INTEREST FROM THE WORLD AT LARGE

FRIDAY.

The German advance in Rumania has apparently been brought to a stand still through the heavy re-enforcements brought up by the Russians and Rumanians. The reports from Berlin tell of only two successes. On the other hand, the Rumanians put down a German attack south of Monestir-Kachinul on the Kasino River, and southwest of Pralae surrounded a German position and captured a large number of men and four machine guns. The Russians are shelling the towns of Tulcha and Izakcha, across the Danube in Dobruja.

The British in France have extended further their gains of Wednesday, near Beaucourt-Sur-Ancre. The French and Germans in the Vosges Mountains, in Lorraine and near Soissons, are engaged in artillery duels which are described by the French War Office as being of "a rather serious character."

Rome reports an attack by the Italians in Tripoli against Tripolitan rebels, who were endeavoring to reach Zoara. The rebels are said to have been defeated, losing 1,000 of the 5,000 men engaged.

That President Wilson's life was threatened by an anarchistic organization known as "The Blasters," of which Thomas J. Mooney, on trial in San Francisco, was a leader, is to be shown by evidence to be presented in Mooney's trial, according to a statement made by Assistant District Attorney E. A. Cunha in his opening address to the jury yesterday.

Shipbuilders laid their side of the controversy over the probable cost and time necessary to construct battle cruisers for the United States before the House Naval Committee yesterday, estimating that each of the cruisers, for hull and machinery, would cost close to \$19,000,000, and that forty-six months would be required in which to build the first ship.

George W. Perkins yesterday sent an ultimatum to the Republican leaders that their harmony plan would not do

and demanded a meeting of the full National Republican Committee to take up the question.

Three companies of the Kentucky National Guard have been ordered home from the border by the War Department, acting upon the request of Gov. Stanley, who, during the recent trouble at Murray, saw the need for at least a small force of militiamen for use in case of emergency. The companies, made up of Louisville, Frankfort and Hopkinsville guards, were directed to begin the return trip immediately.

Impoliteness and crudeness marked the Americans with whom he came in contact while here, according to the final interview given by Sir Rabin-dranath Tagore on sailing from San Francisco for India.

A new wireless record of 11,000 miles was established when the steamer Sonoma, two days off Australia, picked up a message from Germany.

SATURDAY.

"We are condemned to continue the war until we—our gallant allies and ourselves—can obtain the reparation and guarantees rendered indispensable by the aggressions of which we have been the victims, by the sacrifices to which we have subjected our selves and by the losses which we have suffered," said President Poincare yesterday in an interview.

Entente warships continue their search for the German raider in the Atlantic. No additional losses due to the raider's activities have been reported. It was reported yesterday that the raider had armed the St. Theodore and is using the captured vessel as an auxiliary. Nine Americans have been landed at Pernambuco, according to consular reports.

It was unofficially reported by army officers at El Paso that actual withdrawal operations were under way at El Valle, the southern outpost of the punitive expedition in Mexico, and at San Joaquin. All leaves of absences granted to National Guard officers and men have been extended and this is interpreted as an indication that guard troops soon will be sent home.

Admiral Dewey will be buried at Arlington National cemetery after solemn ceremonies, reflecting the nation's final tribute of honor and affection. During the services the entire machinery of the Federal Government was halted. Private business at Washington was suspended an hour and all flags were at half mast.

R. W. Davis, of Fayette county, was elected president of the County Road Engineers' Association of Kentucky at its closing session at Bowling Green yesterday.

SUNDAY.

Reports of the supposed movements of the unidentified German raider in the South Atlantic and details now coming to light suggesting that she may have been accompanied by three small submarines acting as scouts, continue to be an outstanding naval feature of the war. Arrival of the Royal Mail liner Doria at Rio de Janeiro eliminated one of the largest steamers from the list of the supposed victims of the commerce destroyer. A strange steamer, with four funnels sighted off Ceara, Brazil, steaming at high speed, suggested the possibility that the raider was near the northern coast of Brazil.

Nanesti, on the Sereth River, has been captured by German troops. The Russian forces are continuing their counter attacks in the Eastern Carpathians and north of the Schnitz Valley, on the Moldavian frontier, but the Russian assaults generally were checked. Two attacks delivered by the Teutonic forces in the course of heavy fighting at other points on the Moldavian frontier were repulsed by the Russians.

The War Department yesterday ordered the withdrawal of "a substantial number" of National Guardsmen from the Mexican border. The men to be sent home are being chosen now by Gen. Funston. Secretary Baker said the number of men relieved of duty would be between 15,000 and 20,000. This announcement is taken to mean that Gen. Pershing's punitive expedition will be withdrawn soon to fill the vacancies along the Mexican line.

Railroads have been given ten days in which to appoint a committee to co-operate with the Interstate Commerce Commission in an effort to relieve the present coal car shortage, characterized by the commission as without a parallel in the history of the United States. In the event the railroads fail to act, the commission will proceed independently.

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anurie," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced, and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.

Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, indigestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anurie" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to procure a supply of "Anurie" for their anxious customers in and around this locality. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

MONDAY.

The British and Turks in Mesopotamia have been engaged in vigorous fighting along the Tigris river in the vicinity of Kut-el-Amara. Both the London and Constantinople War Offices make claims to successes for their troops in this region. The British official communication announces that northeast of Kut the British troops have driven the Turks from a small strip of land they were holding on the right bank of the Tigris and that King George's men are now in control of an entire trench section on a front of 2,500 yards to a depth of 1,100 yards.

Constantinople, on the other hand, says the British launched three attacks against the Ottoman positions, but that none of them was successful.

In the capture of Nanesti, on the Sereth River in Rumania, hard fighting of a hand-to-hand character took place in the streets. In withdrawing from the village German batteries raked the Russians as they made their way across the bridges over the Sereth, inflicting heavy losses on them. With the fall of Nanesti 555 men and one officer were captured by the Germans.

Members of the Second Kentucky Regiment are among 25,000 guardsmen designated by Maj. Gen. Funston for return home and muster out of the Federal service. The men will be started homeward as soon as transportation facilities are provided. The three companies asked for by Gov. Stanley for protection have left El Paso for home.

On the ground that men serving on armed merchantmen lose their natural status as the crew of the Yarrowdale, including three Americans, are being held as prisoners of war by the Germans. This was made clear in a note handed to Ambassador Gerard for transmission to Washington and may bring about a settlement of the armed merchantmen issue through negotiations.

TUESDAY.

In an address to the United States Senate, President Wilson has made known the things he considers necessary to a lasting peace at the conclusion of the present war. In outlining his ideas, the President suggested virtually a world-wide "Monroe Doctrine" in which he said the United States could not withhold its participation. The freedom of all peoples to work out unhindered their own policies; the avoidance of entangling alliances; free outlets to and the freedom of the seas, and the limitation of naval and military armament were the main things to the desired end, the President said. Senator Ollie M. James and some others of the Kentucky delegation endorsed the speech.

Nearly 200,000 Rumanians have been taken as prisoners of war, according to the Overseas News Agency at Berlin. The Rumanian armies are now said to be reorganizing in Moldavia and Bessarabia. Those divisions on the battle front are greatly reduced.

The natural gas supply at Lexington, Winchester, Mt. Sterling and Versailles was cut off yesterday because the main was broken beyond Mt. Sterling. Much suffering followed. At Lexington the Auditorium was heated with stoves and citizens invited to go there and get warm.

So-called blue sky laws of Ohio, Michigan and South Dakota, regulating the sale of securities and designated to bar get-rich-quick schemes, were upheld as constitutional by the Supreme Court. Similar laws in twenty-six States are affected.

A Berlin wireless dispatch says radio distress signals picked up at Rotterdam reported a British transport with 3,800 men on board had struck a mine in the English channel and was sinking. No confirmation of this has been received.

The Federal Trade Commission's report on the print paper situation, although virtually completed, probably will be held up pending further inquiry concerning the effect of a Canadian Government order fixing maximum prices in Canada.

While Harlan Stone, Miss Reba Farland and Miss Nanie Caudill were fording Triplett creek, near Gates, Rowan county, the two-horse wagon in which they were riding was capsized and all had narrow escapes from drowning. The young women swam to the bank with a trunk and then Miss Caudill, braving the raging torrent and swimming back to the wagon, helped the driver to release one horse, the other being drowned.

Bethlehem's Bid on Shells for the United States Navy

To the American People:

The Secretary of the Navy has awarded contracts amounting to over \$2,000,000 to a British bidder for 14 and 16-inch projectiles for the Navy because of very much lower prices offered by the English bidder.

We know nothing of the basis upon which the British bids were made, but the public is entitled to know the facts upon which we ourselves bid for this work.

Two years ago we took contracts to make 4,200 16-inch shells at a price of \$1,515,000. Up to now not a single shell has been accepted by the Government, although we have expended, in wages, materials, etc., on these orders \$523,591, and we have not received a SINGLE DOLLAR on these contracts.

In addition, a literal interpretation of the contract might make us liable for penalties amounting to \$578,015.

In the light of our experience, and having no other basis, we bid for 16-inch shells approximately the same rate per pound as that which the Navy Department actually awarded a 14-inch shell contract one year ago.

CHIP THIS PIN ON WIFE'S DRESSES

Cincinnati man tells how to shrivel up corns or callouses so they lift off with fingers.

Ouch ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of the Cincinnati authority, who claims that a few drops of a drug called freezeone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezeone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezeone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezeone tell him to order a small bottle for you.

10 CENT "CASCARETS" BEST LAXATIVE FOR LIVER AND BOWELS

DON'T STAY CONSTIPATED, HEAD-
ACHY, BILIOUS, WITH BREATH
BAD OR STOMACH SOUR.

No odds how bad your liver, stomach or bowels: how much your head aches, how miserable and uncomfortable you are from a cold, constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, bad cold, offensive breath and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

FORGET-ME-NOT.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

25-CENT BOTTLE DESTROYS DANDRUFF AND DOUBLES BEAUTY OF YOUR HAIR.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With
Theodor's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theodor's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theodor's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

iff, whereupon Ellis drew his gun and fired, killing Melvin.

Wayne county has sustained another loss in the death of F. M. Booth, of Wilson creek, which occurred last Wednesday at his home after a short illness.

Mr. Booth was about seventy-five years old. He served in the Confederate army for four years.

A very sad tragedy, indeed, occurred last Thursday, near East Lynn, when Mrs. Norma Vaughan, wife of Robert Vaughan, attempted to start a fire by the use of crude oil. It is said that Mrs. Vaughan dashed some of the chemical on hot coals, and that an explosion followed which set fire to her clothes.

Mr. Vaughan was, at the time of the explosion, at the barn only a few feet away. Hearing the explosion, he ran into the house, which was on fire, and dragged his wife out of the flames, endangering his own life in an effort to save that of his companion.

While he was trying to rescue his wife, the house was consumed with all its contents.

Mrs. Vaughan died from the burns Friday. She leaves two children and a husband.—News.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

IF CROSS, FEVERISH, SICK, BILIOUS, CLEAN LITTLE LIVER AND BOWELS.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, Mother! If coated or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

A telegram was received Sunday by Mr. Isaac Collins, announcing the critical illness of his father-in-law, Mr. G. W. Cook and later in the afternoon another that he was dead. Mr. Cook had been ill only three days of pneumonia. His home is Dema, on Beaver creek, six miles from Prestonsburg. Mr. Cook's funeral and burial occurred Tuesday afternoon.

Mr. and Mrs. Collins and daughter left Monday on the O. & B. S., for Dema. Decedent is survived by the following children: Elijah Cook, of Hubble, W. Va., Mrs. L. S. Collins, of this city, Mrs. B. D. Martin, of Kite, Ky.; Mrs. Ellis Hopkins, Mrs. Miles Hopkins, Mrs. Lindsay Wireman, Mrs. Joe Davis, all of Dema, Floyd county. He was 66 years old.

Court Adjourned For Term.

Circuit Court adjourned Saturday afternoon for the term. The last trial and one that consumed all of Saturday was that of Hanson Hatton, charged with having broken into the home of Rousseau Thornbury last summer. The jury disagreed. The trial was a most interesting one, the evidence being purely circumstantial, and there is serious doubt in the minds of people who heard the testimony as to the man's guilt. Many who heard the testimony think it was a case of mistaken identity and that Hatton is the wrong man. He proved an excellent character, other than that he got drunk occasionally. The crime was a grave and cowardly one, inasmuch as the perpetrator of same badly frightened Miss Jennie, the charming young daughter of Mr. Thornbury, who was alone at the home. The accused man proved conclusively by a number of reputable people that he was a checked cap and blue suit and accounted for his movements for every moment of his time up to his arrest, while witnesses testified that the man who committed the crime wore a brown suit, brown hat and brown shoes. The next term of criminal court will be in April.—Independent.

WHITESBURG.

A shotgun in the hands of her 13-year-old brother, carelessly discharged, resulted in probable fatal injuries to Mrs. Nina Newsome, 30 years old, of the Payne Gap section. The whole charge from the gun, a 12 gauge weapon, passed through Mrs. Newsome's thigh, and it is believed to have shattered the bone. Physicians believe her only hope is in amputation of the member.

Mrs. Newsome was near her home doing her chores, and the boy hunting rabbits nearby when the gun was discharged.

Five of the children of Ed Gearhart, of Beaver creek, on the Knott county border, have died within the past 35 hours of measles complications, according to reports to reach Whitesburg. Three others of the family are ill.

Cold Sores and Fever Blisters

are only outward manifestations of the inflammation of the mucous surface that lines the lungs, the stomach and all the digestive tract, but they give you evidence of how sore a membrane may become as a result of inflammation, which is stagnation of the blood, rightfully called acute catarrh.

If you suffer from such conditions don't let them become chronic, don't run the risk of systemic catarrh.

Clear it Up With PERUNA

When your system is cleared of all its poisons, the membranes soothed and healed, the cold gone and your digestion restored, you will enjoy life, feel equal to all its tasks, and be at peace with the world. Let Peruna do for you what it did for this sufferer:

Mrs. L. A. Fatterson, 238 Utah Avenue, Memphis, Tenn. says:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

You needn't suffer longer with such a remedy at hand.

Peruna can be obtained in tablet form. You can carry it with you and take it systematically and regularly for a remedy, or as needed for a preventive. Get a box today.
